CSE121

Lab 7 report

Due: 6/2/2023

ultrasonic.c:

- Uses conversion of $v = 331.4 + 0.6 * T$ and $d = (v * t) / 2$ where v is the velocity in meters/second, T is temperature in celsius and t is time in seconds.
- Uses SHTC3 functionality from passed labs.
- Uses SR04 code from lecture.
